Classic refrigerated wine cooler facts & figures

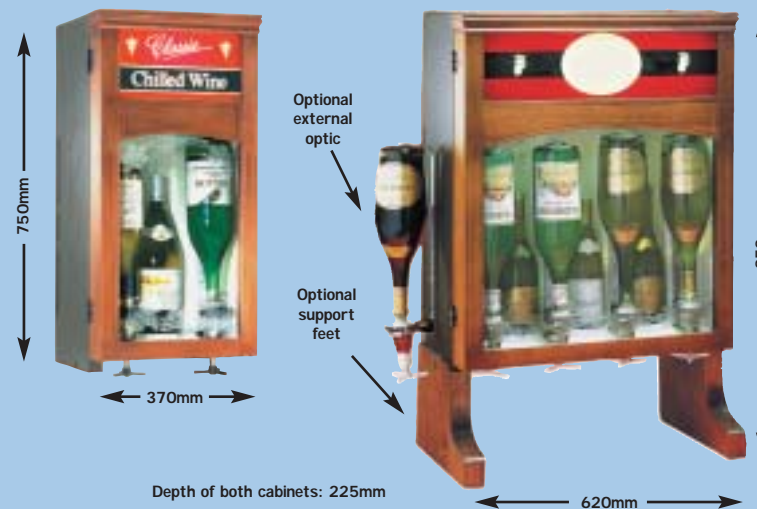

CAPACITIES

The larger of the two wine coolers in the range will hold four two-litre bottles on optic while a further three bottles are pre-chilling and on display.

The smaller cooler will hold two two-litre bottles on optic with one more bottle displayed and pre-chilling.

Optional, external optics may be fitted to the cabinet sides.

DIMENSIONS

Autonumis Wine Cellars are simple to install and only require connection to a correctly wired and fused 13A power point.

They may be wall mounted on a solid wall with suitable secure fixings or, alternatively, may be mounted on optional support feet.

ADDITIONAL FEATURES

- ▼ Adjustable thermostat allows cabinet to be set at the preferred temperature
- ▼ Interior of the cabinet is finished in a 'wipe clean' moulding for complete hygiene
- ▼ Cabinets come ready for wall-mounted use complete with two metres of cable
- ▼ The cabinet door is left hinged and equipped with a secure latch
- ▼ Free-flow optics (standard) or measured (125ml) are available
